CLIMBING ROSES

- _____ **PAUL'S SCARLET**, popular red

This is our twenty-first year in the Nursery business. Rosebushes always have been our specialty. We concentrate on producing high quality roses and no efforts are spared to reach that goal. Then, by our own labor and supervision we are able to effect economies, which we pass on to

our customers, through lower prices on Rosebushes. The above variety list of Rosebushes is available in two-year field grown stock. These Rosebushes are budded on multiflora Japonica understock, which gives them a massive root system. These are for Spring 1949 delivery.

● Manetti understock is also being grown by us. We now offer the following sorts budded on Manetti: Peters Briarcliff. Talisman. Prices same as stock budded on Multiflora Japonica.

● Greenhouse growers—ask for our contract plan—budding and growing Rosebushes on Manetti understock.

PROCESSED NURSERY STOCK -

2 Year old field grown rosebushes

—Direct from the Growers

For Sales yards, Seed Stores and Florist Shops: High quality Nursery stock packaged for eye appeal, ease of handling and keepability.

Wilson & Sons Nursery stock moves faster and with better profits.

We are the growers and distributors. Now your customers can get packaged

nursery stock that is fresh from the nursery rows, stock that is handled by expert nurserymen, men who know how to grade and how stock must be handled to keep it in the good condition so necessary for your customer satisfaction.

WARNING!!—Acute Shortage of Rosebushes seen for Season Fall 1949 and Spring of 1950.

The Tyler area has suffered the worst loss of Rose understock (cuttings) since the rise of the Rose growing industry. Many fields are a total loss and have been abandoned. Others were up to 75% loss. It is believed that the Fall 1949 and Spring 1950 harvest will be less than 40% of normal production.

LABELS AT MANUFACTURERS PRICES

PRINTED WOOD LABELS:

2½ inch wired wood labels, printed one line, not less than 100 labels of a variety. 35c per 100 labels.

Wilson & Sons Nursery Co., is owned and operated by W. F. Wilson, (Manager) and his five sons. All orders are personally taken care of, which is your assurance of good stock, properly packed.

This is our twenty-first year growing and distributing good Rosebushes, Shrubs. Bulbs. Fruit and shade Trees.

MECHANIZE NOW FOR GREATER PROFITS!

**HERE'S
Why**

AND HERE'S HOW...

Let Wilson and Sons labor saving equipment cut your production costs! These are the implements for which the nursery industry has been waiting. They enable you to grow and sell more high class stock at a lower cost per plant. This means greater profit for every nurseryman and florist who grows fruit trees, shade trees, shrubs, bulbs, evergreens, rosebushes.

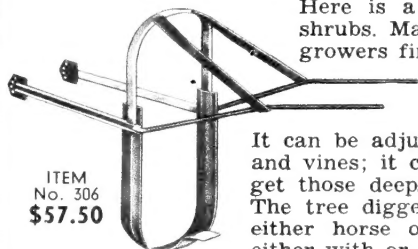

IMPROVED TREE DIGGER

Here is a practical digger for all types of trees and shrubs. Many growers use it also for root pruning. Bulb growers find it highly successful for digging bulbs.

The tree digger is solid steel throughout. The blade is machined and shaped for greatest ease of operation.

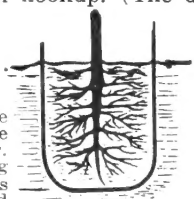

It can be adjusted to run shallow for digging shallow roots and vines; it can be set quickly and simply to go down and get those deep. (tap) rooting trees and shrubs.

The tree digger is manufactured in models to be pulled by either horse or tractor. The digger is made for tractors either with or without power lift. If you are using a tractor, be sure to give us make and model so you will get the digger with the right dimensions, etc., for quick, easy installation hookup. (The digger is not made for 2-row tractors.)

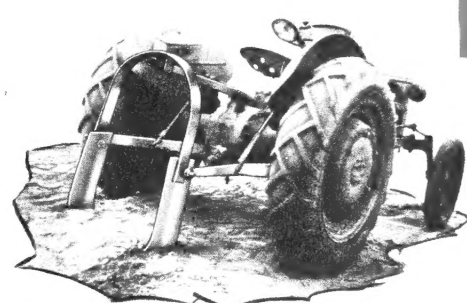

ITEM
No. 306
\$57.50

The model illustrated above is for all one row tractors not using power lifts. Also horse drawn. Other models for power lift tractors. All at same price.

This drawing shows the simple principle of the sensational tree digger. The U-shaped cutting blade, 22 in. across, glides under the roots. Welded to its rear edge is a tilted "apron" which lifts and loosens the soil so the plants can be lifted out easily. (See illustration at Right.)

THE DIGGER AT WORK — The above photograph shows a power lift model in action. Note how deeply it cuts without effort!

(Clipping from well-known trade Journal)

PLANTER

A REVOLUTIONARY MACHINE THAT CUTS PLANTING TIME IN HALF

This startling new equipment not only cuts costs of planting—it insures uniformity. You get straight rows of

even depth (adjusted to suit your needs) so that plants are left in good shape and easy to cultivate. The planting equipment is solid steel. It is actually two implements in one. A V-shaped forward piece levels the bed row to a smooth, flat surface.

A sharp 20-inch disc roller slits a straight, narrow trench for your nursery stock. Both forward piece and cutting disc are adjustable to any height. Thus your planting trench may be cut to any desired depth.

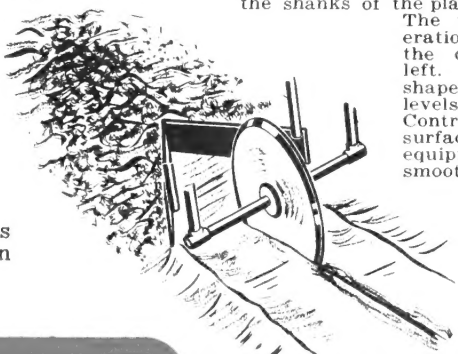

The equipment may be either horse or tractor drawn. Two sets may be installed on one 2-row tractor.

ITEM No. 304
\$28.75

The photograph above shows how the planter is attached to your tractor cultivator. All you need to do is remove the cultivator feet and insert the shanks of the planting equipment.

The principle of operation is shown in the drawing at the left. Note the V-shaped piece which levels the row bed. Contrast the rough surface ahead of the equipment with the smooth flat surface after the V has passed over it. The 20-inch sharp steel disc cuts a straight, even slot for planting. It may be adjusted to any depth desired.

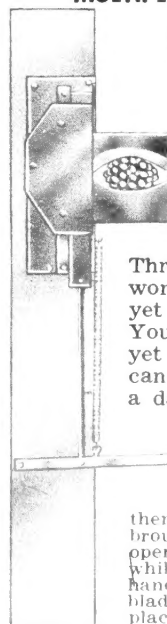

MULTIPLY OUTPUT PER MAN

3fold! with the HARDWOOD CUTTING MACHINE

Three men can do twice the work of five with this simple yet highly efficient machine. You can eliminate two men, yet double production—three can turn out 150,000 cuttings a day!

The instrument is solid steel throughout. It is equipped with two cutting blades. The wood is placed between them, and the top blade is brought down by pressure of the operator's foot on the pedal, while both hands are free to handle the cuttings. The top blade is drawn back to starting place by a spring.

ITEM No. 300
\$23.25

WILSON & SONS NURSERY CO. ▼ WINNSBORO, TEXAS

WILSON & SONS NURSERY COMPANY

W. F. Wilson, Mgr.

WINNSBORO, TEXAS

FELLOW NURSERYMEN, FLORISTS & SEEDSMEN:

The Spring season is close at hand, and you will want to be lined up with an ample supply of good Rosebushes at reasonable prices.

This is our specialty. Commercial cut rose growers, sales yard managers and nurseries everywhere, are changing to Wilson's. The way they stay with us, after they start, is mighty good proof that we are really satisfying them!

There's no secret about how we do it. Wilson & Sons Nurseries are owned and operated by W. F. Wilson (Manager) and his five sons. Your orders get our personal attention. That's why we can give such low prices on high quality nursery stock. And by giving your needs our personal attention, we make sure that you and your customers get complete satisfaction.

SUPPLIES are another part of our business, which is growing rapidly. The whole nursery industry is expanding. And a big factor in that growth, is the use of time-and-labor saving equipment, coupled with better business methods.

Nurserymen and growers everywhere are using our implements, to cut operating costs, while increasing production of quality stock. They are also taking advantage of the convenience and savings of ordering supplies from us.

We want you to know that we Wilson's truly appreciate any consideration you give us, and we promise careful attention to your orders and instructions. Assuring you of fine Rosebushes and supplies, we are, with kindest regards,

Very truly yours,

WILSON & SONS NURSERY CO.

W. F. Wilson
W. F. Wilson, Manager.
